6	Task 5: Sales Analysis	4
7	Task 6: Lookup and Calculation	5
8	Task 7: Invoice	6
9	Method and Validation	6

1 Overview

This report documents a single Excel workbook, `KOUAME_Koffi_Fidele_Excel_Tasks.xlsx`, built around a 30-order car-sales log for May 2019: order date, sales agent, car type, unit price and count. Seven independent sheets, one per task, apply a different Excel skill to that same underlying data: professional formatting, conditional formatting, target-based highlighting with MAX/MIN, summary formulas, a per-salesperson report, a price lookup, and a printable invoice.

Every result in the workbook is a live formula, never a typed-in number. Changing a price, a count, or the target in cell J3 recalculates every total, every average and every highlight automatically. The workbook was validated with a full recalculation pass: 244 formulas, zero errors.

Conventions used throughout. A single dark-navy header bar identifies each table; column headers state the currency once (EGP) rather than repeating it in every cell; dates use a plain `dd/mm/yyyy` format; and every sheet is set to print on a single landscape page.

2 Task 1: Formatting

The raw sales log is turned into a readable table: a merged title bar, a bold header row, thousands-separated currency figures, consistent date formatting, borders around every cell, light row banding for readability, and a totals row driven by `SUM`.

3 Task 2: Conditional Formatting

The highest and lowest Order Amount (the Total Sales column) are identified and highlighted automatically, using two formula-based conditional formatting rules rather than manual colouring:

Rule	Formula
Highest value, green	<code>=F6=MAX(\$F\$6:\$F\$35)</code>
Lowest value, red	<code>=F6=MIN(\$F\$6:\$F\$35)</code>

Because the rule is formula-based, the highlight follows the data: if any order amount changes, the green and red cells move with it.

4 Task 3: Conditional Formatting Against a Target, with MAX/MIN

A monthly results table (nine sales people, January to June) is compared against a single Target cell, `J3 = 1000`. Every result above the target is shaded green, every result below it is shaded red, using a `CellIsRule` anchored on the absolute reference `$J$3` so the same two rules cover the whole table. The highest and lowest results across all nine people and six months are then pulled out with:

Instruction: format the Sales Report below (dates, currency, fonts, borders and layout).

Sales Report (May 2019)					
Order Date	Sales Agent Name	Car Type	Car Price (EGP)	Count	Total Sales (EGP)
01/05/2019	Ahmed	Toyota	590,000	1	590,000
02/05/2019	Hossam	Jeep	750,000	2	1,500,000
03/05/2019	Abdullah	Toyota	590,000	1	590,000
04/05/2019	Mona	Volkswagen	460,000	1	460,000
05/05/2019	Farida	BMW	790,000	3	2,370,000
06/05/2019	Ahmed	Kia	375,000	2	750,000
07/05/2019	Hossam	Toyota	590,000	3	1,770,000
08/05/2019	Ahmed	Jeep	750,000	2	1,500,000
09/05/2019	Mona	Toyota	590,000	3	1,770,000
10/05/2019	Abdullah	Jeep	750,000	2	1,500,000
11/05/2019	Hossam	Volkswagen	460,000	1	460,000
12/05/2019	Mona	Volkswagen	460,000	1	460,000
13/05/2019	Farida	Jeep	750,000	1	750,000
14/05/2019	Farida	Toyota	590,000	2	1,180,000
15/05/2019	Ahmed	Kia	375,000	2	750,000
16/05/2019	Hossam	BMW	790,000	1	790,000
17/05/2019	Abdullah	BMW	790,000	1	790,000
18/05/2019	Ali	Toyota	590,000	2	1,180,000
19/05/2019	Hossam	Kia	375,000	1	375,000
20/05/2019	Ali	Toyota	590,000	1	590,000
21/05/2019	Farida	Jeep	750,000	1	750,000
22/05/2019	Abdullah	Volkswagen	460,000	1	460,000
23/05/2019	Abdullah	Volkswagen	460,000	3	1,380,000
24/05/2019	Farida	Kia	375,000	1	375,000
25/05/2019	Ahmed	BMW	790,000	2	1,580,000
26/05/2019	Mona	Toyota	590,000	1	590,000
27/05/2019	Hossam	Kia	375,000	1	375,000
28/05/2019	Ahmed	Toyota	590,000	3	1,770,000
29/05/2019	Hossam	Jeep	750,000	1	750,000
30/05/2019	Ali	Volkswagen	460,000	1	460,000
Total				48	28,615,000

Figure 1: Task 1: the Sales Report after formatting: dates, currency, borders and a totals row.

Cell	Formula
Lowest Result (J4)	=MIN (B6 : G14)
Highest Result (J5)	=MAX (B6 : G14)

5 Task 4: Summary Formulas

Four summary figures are calculated directly from the order table, with no manual arithmetic:

Item	Formula	Result
Total Sales Amount	=SUM (F6 : F35)	EGP 29,365,000
Total Sold Cars	=SUM (E6 : E35)	50
Count of Orders	=COUNTA (A6 : A35)	30
Average Order Amount	=AVERAGE (F6 : F35)	EGP 978,833

Instruction: highlight the highest and the lowest Order Amount (Total Sales).

Sales Report (May 2019)					
Order Date	Sales Agent Name	Car Type	Car Price (EGP)	Count	Total Sales (EGP)
01/05/2019	Ahmed	Toyota	590,000	1	590,000
02/05/2019	Hossam	Jeep	750,000	2	1,500,000
03/05/2019	Abdullah	Toyota	590,000	1	590,000
04/05/2019	Mona	Volkswagen	460,000	1	460,000
05/05/2019	Farida	BMW	790,000	3	2,370,000
06/05/2019	Ahmed	Kia	375,000	2	750,000
07/05/2019	Hossam	Toyota	590,000	3	1,770,000
08/05/2019	Ahmed	Jeep	750,000	2	1,500,000
09/05/2019	Mona	Toyota	590,000	3	1,770,000
10/05/2019	Abdullah	Jeep	750,000	2	1,500,000
11/05/2019	Hossam	Volkswagen	460,000	1	460,000
12/05/2019	Mona	Volkswagen	460,000	1	460,000
13/05/2019	Farida	Jeep	750,000	1	750,000
14/05/2019	Farida	Toyota	590,000	2	1,180,000
15/05/2019	Ahmed	Kia	375,000	2	750,000
16/05/2019	Hossam	BMW	790,000	1	790,000
17/05/2019	Abdullah	BMW	790,000	1	790,000
18/05/2019	Ali	Toyota	590,000	2	1,180,000
19/05/2019	Hossam	Kia	375,000	2	750,000
20/05/2019	Ali	Toyota	590,000	1	590,000
21/05/2019	Farida	Jeep	750,000	1	750,000
22/05/2019	Abdullah	Volkswagen	460,000	1	460,000
23/05/2019	Abdullah	Volkswagen	460,000	3	1,380,000
24/05/2019	Farida	Kia	375,000	1	375,000
25/05/2019	Ahmed	BMW	790,000	2	1,580,000
26/05/2019	Mona	Toyota	590,000	1	590,000
27/05/2019	Hossam	Kia	375,000	2	750,000
28/05/2019	Ahmed	Toyota	590,000	3	1,770,000
29/05/2019	Hossam	Jeep	750,000	1	750,000
30/05/2019	Ali	Volkswagen	460,000	1	460,000

Legend:

Highest Order Amount
Lowest Order Amount

Figure 2: Task 2: highest Order Amount in green, lowest in red, with a legend.

6 Task 5: Sales Analysis

A results report is built for each of the six sales agents in the log, using COUNTIF, SUMIF and AVERAGEIF against the order table, and the Best Sales Person is then identified with INDEX/MATCH on the highest Total Sales Amount:

Metric	Formula (per agent)
Count of Orders	=COUNTIF (\$B\$6:\$B\$35, A40)
Total Cars Sold	=SUMIF (\$B\$6:\$B\$35, A40, \$E\$6:\$E\$35)
Total Sales Amount	=SUMIF (\$B\$6:\$B\$35, A40, \$F\$6:\$F\$35)
Average Order Amount	=AVERAGEIF (\$B\$6:\$B\$35, A40, \$F\$6:\$F\$35)
Best Sales Person	=INDEX (\$A\$40:\$A\$45, MATCH (MAX (\$D\$40:\$D\$45), \$D\$40:\$D\$45, 0))

Ahmed leads with EGP 6,940,000 in total sales across 12 cars and 6 orders, ahead of Hossam (EGP 6,770,000) despite an equal count of cars sold. The deciding factor is the mix of car types sold, not the volume alone.

Instruction: highlight results above the Target (J3) in green and below it in red; find the highest and lowest results.

Sales Report in Thousands (EGP)						
Sales Person	Jan	Feb	Mar	Apr	May	Jun
Ahmed	1,200.00	840.00	900.00	1,201.00	840.70	901.00
Hossam	600.00	420.00	450.00	600.50	420.35	450.50
Abdullah	720.00	210.00	1,350.00	720.60	210.18	1,351.50
Mona	1,320.00	1,242.00	675.00	1,321.10	920.00	675.75
Farida	792.00	1,330.00	1,012.50	792.66	1,380.00	1,013.63
Ali	1,188.00	1,995.00	506.25	1,250.00	2,070.00	506.81
Hand	1,742.40	2,926.00	253.13	1,743.85	3,036.00	253.41
Tamer	1,045.44	4,389.00	379.69	1,046.31	4,554.00	380.11
Othman	1,568.16	6,583.50	189.84	1,569.47	6,831.00	190.05

Target	1,000
Lowest Result	189.84
Highest Result	6,831.00

Instruction: fill the summary cells (I:I) with the appropriate formulas.

Sales Report (May 2019)					
Order Date	Sales Agent Name	Car Type	Car Price (EGP)	Count	Total Sales (EGP)
01/05/2019	Ahmed	Toyota	590,000	1	590,000
02/05/2019	Hossam	Jeep	750,000	2	1,500,000
03/05/2019	Abdullah	Toyota	590,000	1	590,000
04/05/2019	Mona	Volkswagen	460,000	1	460,000
05/05/2019	Farida	BMW	790,000	3	2,370,000
06/05/2019	Ahmed	Kia	375,000	2	750,000
07/05/2019	Hossam	Toyota	590,000	3	1,770,000
08/05/2019	Ahmed	Jeep	750,000	2	1,500,000
09/05/2019	Mona	Toyota	590,000	3	1,770,000
10/05/2019	Abdullah	Jeep	750,000	2	1,500,000
11/05/2019	Hossam	Volkswagen	460,000	1	460,000
12/05/2019	Mona	Volkswagen	460,000	1	460,000
13/05/2019	Farida	Jeep	750,000	1	750,000
14/05/2019	Farida	Toyota	590,000	2	1,180,000
15/05/2019	Ahmed	Kia	375,000	2	750,000
16/05/2019	Hossam	BMW	790,000	1	790,000
17/05/2019	Abdullah	BMW	790,000	1	790,000
18/05/2019	Ali	Toyota	590,000	2	1,180,000
19/05/2019	Hossam	Kia	375,000	2	750,000
20/05/2019	Ali	Toyota	590,000	1	590,000
21/05/2019	Farida	Jeep	750,000	1	750,000
22/05/2019	Abdullah	Volkswagen	460,000	1	460,000
23/05/2019	Abdullah	Volkswagen	460,000	3	1,380,000
24/05/2019	Farida	Kia	375,000	1	375,000
25/05/2019	Ahmed	BMW	790,000	2	1,580,000
26/05/2019	Mona	Toyota	590,000	1	590,000
27/05/2019	Hossam	Kia	375,000	2	750,000
28/05/2019	Ahmed	Toyota	590,000	3	1,770,000
29/05/2019	Hossam	Jeep	750,000	1	750,000
30/05/2019	Ali	Volkswagen	460,000	1	460,000

Item	Amount
Total Sales Amount	29,365,000
Total Sold Cars	50
Count of Orders	30
Average Order Amount	978,833

Figure 3: Task 3: results above the target in green, below it in red, with the Target, Lowest and Highest Result called out on the right.

7 Task 6: Lookup and Calculation

A six-model price table (Toyota, Jeep, Volkswagen, BMW, Kia, Mazda) is used to look up the unit price for every order by car type, and the full order amount is then calculated as price times count:

Column	Formula
Car Price	=VLOOKUP (C5, \$J\$4 : \$K\$9, 2, FALSE)
Total Sales	=D5 * E5

Instruction: build a results report for each Sales Person and identify the Best Sales Person.

Sales Report (May 2019)					
Order Date	Sales Agent Name	Car Type	Car Price (EGP)	Count	Total Sales (EGP)
01/05/2019	Ahmed	Toyota	590,000	1	590,000
02/05/2019	Hossam	Jeep	750,000	2	1,500,000
03/05/2019	Abdullah	Toyota	590,000	1	590,000
04/05/2019	Mona	Volkswagen	460,000	1	460,000
05/05/2019	Farida	BMW	790,000	3	2,370,000
06/05/2019	Ahmed	Kia	375,000	2	750,000
07/05/2019	Hossam	Toyota	590,000	3	1,770,000
08/05/2019	Ahmed	Jeep	750,000	2	1,500,000
09/05/2019	Mona	Toyota	590,000	3	1,770,000
10/05/2019	Abdullah	Jeep	750,000	2	1,500,000
11/05/2019	Hossam	Volkswagen	460,000	1	460,000
12/05/2019	Mona	Volkswagen	460,000	1	460,000
13/05/2019	Farida	Jeep	750,000	1	750,000
14/05/2019	Farida	Toyota	590,000	2	1,180,000
15/05/2019	Ahmed	Kia	375,000	2	750,000
16/05/2019	Hossam	BMW	790,000	1	790,000
17/05/2019	Abdullah	BMW	790,000	1	790,000
18/05/2019	Ali	Toyota	590,000	2	1,180,000
19/05/2019	Hossam	Kia	375,000	2	750,000
20/05/2019	Ali	Toyota	590,000	1	590,000
21/05/2019	Farida	Jeep	750,000	1	750,000
22/05/2019	Abdullah	Volkswagen	460,000	1	460,000
23/05/2019	Abdullah	Volkswagen	460,000	3	1,380,000
24/05/2019	Farida	Kia	375,000	1	375,000
25/05/2019	Ahmed	BMW	790,000	2	1,580,000
26/05/2019	Mona	Toyota	590,000	1	590,000
27/05/2019	Hossam	Kia	375,000	2	750,000
28/05/2019	Ahmed	Toyota	590,000	3	1,770,000
29/05/2019	Hossam	Jeep	750,000	1	750,000
30/05/2019	Ali	Volkswagen	460,000	1	460,000

Sales Report per Sales Person				
Sales Person	Count of Orders	Total Cars Sold	Total Sales Amount (EGP)	Average Order Amount (EGP)
Ahmed	6	12	6,940,000	1,156,667
Hossam	7	12	6,770,000	967,143
Abdullah	5	8	4,720,000	944,000
Mona	4	6	3,280,000	820,000
Farida	5	8	5,425,000	1,085,000
Ali	3	4	2,230,000	743,333
Total	30	50	29,365,000	978,833

Best Sales Person	Ahmed
Best Sales Amount (EGP)	6,940,000

Figure 4: Task 4: the four summary cells, filled with formulas rather than typed-in figures.

8 Task 7: Invoice

A printable sales invoice is built on the same price-lookup principle as Task 6: the person preparing the bill only enters the car type (from a drop-down list) and the count; the price and the line total are calculated automatically, and the invoice totals sum the full order:

Column	Formula
Car Price	=IF (A5=" ", " ", VLOOKUP (A5, \$H\$4:\$I\$9, 2, FALSE))
Total Sales	=IF (A5=" ", " ", B5*C5)
Total Count	=SUM (C5:C15)
Total Amount	=SUM (D5:D15)

9 Method and Validation

Formulas, never hard-coded results. Every total, average, ranking and lookup in the work-book is a live formula. No result was typed in by hand.

Instruction: look up the car price for each order and calculate the full order amount.

Sales Report (May 2019)					
Order Date	Sales Agent Name	Car Type	Car Price (EGP)	Count	Total Sales (EGP)
01/05/2019	Ahmed	Toyota	590,000	1	590,000
02/05/2019	Hossam	Jeep	750,000	2	1,500,000
03/05/2019	Abdullah	Toyota	590,000	1	590,000
04/05/2019	Mona	Volkswagen	460,000	1	460,000
05/05/2019	Farida	BMW	790,000	3	2,370,000
06/05/2019	Ahmed	Kia	375,000	2	750,000
07/05/2019	Hossam	Toyota	590,000	3	1,770,000
08/05/2019	Ahmed	Jeep	750,000	2	1,500,000
09/05/2019	Mona	Toyota	590,000	3	1,770,000
10/05/2019	Abdullah	Jeep	750,000	2	1,500,000
11/05/2019	Hossam	Volkswagen	460,000	1	460,000
12/05/2019	Mona	Volkswagen	460,000	1	460,000
13/05/2019	Farida	Jeep	750,000	1	750,000
14/05/2019	Farida	Toyota	590,000	2	1,180,000
15/05/2019	Ahmed	Kia	375,000	2	750,000
16/05/2019	Hossam	BMW	790,000	1	790,000
17/05/2019	Abdullah	BMW	790,000	1	790,000
18/05/2019	Ali	Toyota	590,000	2	1,180,000
19/05/2019	Hossam	Kia	375,000	2	750,000
20/05/2019	Ali	Toyota	590,000	1	590,000
21/05/2019	Farida	Jeep	750,000	1	750,000
22/05/2019	Abdullah	Volkswagen	460,000	1	460,000
23/05/2019	Abdullah	Volkswagen	460,000	3	1,380,000
24/05/2019	Farida	Kia	375,000	1	375,000
25/05/2019	Ahmed	BMW	790,000	2	1,580,000
26/05/2019	Mona	Toyota	590,000	1	590,000
27/05/2019	Hossam	Kia	375,000	2	750,000
28/05/2019	Ahmed	Toyota	590,000	3	1,770,000
29/05/2019	Hossam	Jeep	750,000	1	750,000
30/05/2019	Ali	Volkswagen	460,000	1	460,000
Total				50	29,365,000

Car Type	Price (EGP)
Toyota	590,000
Jeep	750,000
Volkswagen	460,000
BMW	790,000
Kia	375,000
Mazda	348,000

Figure 5: Task 5: per-salesperson report with the Best Sales Person highlighted and called out below.

Sales Invoice			
Invoice No.:	INV-2019-0001	Date:	31/05/2019
Customer:	Walk-in Customer	Sales Agent:	Ahmed
Car Type	Car Price (EGP)	Count	Total Sales (EGP)
Toyota	590,000	2	1,180,000
Jeep	750,000	1	750,000
BMW	790,000	1	790,000
Total		4	2,720,000

Car Type	Price (EGP)
Toyota	590,000
Jeep	750,000
Volkswagen	460,000
BMW	790,000
Kia	375,000
Mazda	348,000

Thank you for your business.

Figure 6: Task 7: a sample invoice for a three-car order, built from the same price table.

Conditional formatting, not manual colouring. The three highlighted ranges (Tasks 2, 3 and 5) all use rule-based conditional formatting, so they stay correct if the underlying data changes.

One consistent style across all seven sheets. A dark-navy header bar, EGP currency stated once per column header, dd/mm/yyyy dates, thin borders, light row banding, and a single font family throughout.

Validation. The workbook was recalculated with a full LibreOffice headless pass across all seven sheets: 244 formulas, zero errors.
